IS IDEAL

The most complete plant of its nature in America. Nurserymen constantly visit us to get equipment information. They realize that the nursery product is a living thing and that it must be handled in the most approved manner to give the success that is necessary to hold their customers.

We have our own private water works and irrigating system and every available improvement for producing the best stock possible, handling and shipping it to reach purchasers in most satisfactory condition. We have our own machine shops for quickly handling repairs to motors, sprayers, tractors, trucks, heat and water systems; railroad cars run right to our great packing buildings and greenhouses.

The next larger size in each instance represents practically one year's growth. Would you put your planting behind one year for such a small saving? We recommend the larger grades.

## ADVANCEMENT IS A THING WE ALL STRIVE FOR

The Cole Nursery Co. has always endeavored to keep up with the times and wherever possible to make changes "for the better." You will note that we have instituted an EACH RATE FOR YOUR ACCOMMODATION (where less than five plants of a variety are wanted.) Although the type of order that this refers to usually averages well, there are often a few items wanted in small quantities, and we wish to accommodate you.

Moreover there is a further ADVANTAGE FOR YOU in that we have been enabled to LOWER THE 10 RATE PRICE ON APPROXIMATELY 500 ITEMS. We fully believe that you deserve these lower prices where 5 to 25 plants are required. We are glad to do this and of course we guarantee the usual "COLE QUALITY."
